Technical Skills

- MongoDB, Express.js, React.js, and Node.js for end-to-end application development
- ACH Payment Integration
- Implementing both symmetric and asymmetric encryption
- Skilled in creating real-time, interactive chat applications
- Secure Data Backup and Restoration

Soft Skills

- Inspire and motivate your team members
- Efficiently manage time and resources to meet project deadlines
- Communication
- Team Management

Countries Visited

- Singapore
- Malaysia
- Thailand
- Qatar
- Saudi Arabia

About Me

Enthusiastic and innovative Software Engineer with a strong background in the MERN stack (MongoDB, Express.js, React.js, and Node.js). With a proven track record of applying analytical skills and problem-solving abilities to deliver optimal solutions, I am eager to contribute to business growth. With a natural propensity towards challenging tasks.

I constantly seek opportunities to transform technical problems into software solutions. Ready to employ these skills in a dynamic and forward-thinking team.

Professional Experience

Data Magnetics/Team Lead MERN Stack

2023 – Present

- Oversee all phases of project development, from concept to deployment. Plan and define project scope, goals, and deliverables in collaboration with stakeholders.
- Lead and mentor a team of MERN stack developers. Provide guidance, support, and feedback to team members to enhance performance and productivity.
- Provide technical expertise in the design and development of applications using the MERN stack (MongoDB, Express.js, React.js, Node.js).

Devbeans | Sr. MERN Stack Developer

2021 – 2023

- Design, develop, and implement high-quality software solutions using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Evaluate potential technical risks and challenges, and devise mitigation strategies.
- Implement security best practices throughout the application to protect sensitive data and prevent security breaches.

Devsinc | Software Engineer

2019 – 2021

- Continuously monitor, optimize, and improve web applications for better performance and efficiency.
- Use logical and analytical thinking to solve complex software problems and challenges.
- Use version control systems like Git to track and manage changes to the codebase, facilitating collaboration and preventing conflicts.

Teaching Experience

- Fast University, Lahore Campus
Visiting Lecturer, 2023

Education Background

- Fast University Lahore Campus
MS Software Project Management
Completed in 2023
- Punjab University College of Information Technology
BS Computer Science
Completed in 2016

Dynamic Logix | Full Stack Developer

2017 – 2019

- Write clean, efficient, and maintainable code using Node.js
- Collaborate with senior developers or project managers to understand the project requirements and specifications.
- Use version control systems like Git to track and manage changes to the codebase, facilitating collaboration and preventing conflicts.
